# THE MARTIAN GAMING ENGINE

## Current Features

- Multiplayer Arena-Battles gameplay similar to Halo Infinite, or Planetside 2 in Spirit & Physical Gameplay
- 3rd person perspective: ideal for NFT / MetaVerse / Avatar - centric projects
- JetPack, Grapple, Throw-Grenades, Pistols/Rifles Gunplay, Sword-Fight, and butt-slide!
- Conquest (Capture-Point) style gameplay, as popularized in Battlefield games and PlanetSide2
- Get in/out of vehicles: Aircraft, Jeeps, Hovercraft, Tanks, Boats, etc
- Pay-To-Respawn crypto/blockchain APIs
- Our game-system is designed to accommodate reskinning to a variety of art styles

# MULTIPLAYER MAP BUILDING

## Players will be able to

- Players will be able to construct their own maps in real-time with their friends [think: Minecraft / Roblox]
- Designate the Play Mode [Team Deathmatch, Capture The Flag, Capture Territory]
- Assign the positions of the key gameplay elements: Soldier Spawn Points, Vehicle Spawns, Aircraft Spawns, Capture Areas, Flags, or even Goal Nets
- Terraform Terrain Tools : Raise, Lower, Flatten, Erode, Dig
- Place objects from an assortment of hundreds of prefabs
